Molecular and Cellular Biochemistry:

An International Journal for Chemical Biology in Health and Disease

CONTENTS VOLUME 289, Nos. 1 & 2, September 2006

P. Bansal, S.K. Gupta, S.K. Ojha, M. Nandave, R. Mittal, S. Kumari and D.S. Arya: Cardioprotective effect of lycopene in the experimental model of myocardial ischemia-reperfusion injury 1–9

V.A. Das, R. Robinson and C.S. Paulose: Enhanced β-adrenergic receptors in the brain and pancreas during pancreatic regeneration in weanling rats 11–19

F.C. Howarth and M.A. Qureshi: Effects of carbenoxolone on heart rhythm, contractility and intracellular calcium in streptozotocin-induced diabetic rat 21–29

Y. Mythili, P.T. Sudharsan and P. Varalakshmi: Insight into the role of DL-α-lipoic acid against cyclophosphamide induced alterations in calcium sensitivity of cardiac myofilaments 31–37

S.V. Rana, R. Pal, K. Vaiphie and K. Singh: Effect of different oral doses of isoniazid-rifampicin in rats 39–47

Z.S. Agadjanyan, S.F. Dugin and L.F. Dmitriev: Cumene peroxide and Fe^{2+}-ascorbate-induced lipid peroxidation and effect of phosphoglucose isomerase 49–53

S. Das, P. Der, U. Raychaudhuri, N. Maulik and D.K. Das: The effect of Euryale ferox (makhana), an herb of aquatic origin, on myocardial ischemic reperfusion injury 55–63

A.S.K. Tamajusuku, M.A. Carrillo-Sepúlveda, E. Braganhol, M.R. Wink, J.J.F. Sarkis, M.L.M. Barreto-Chaves and A.M.O. Battastini: Activity and expression of ecto-5′-nucleotidase/CD73 are increased by thyroid hormones in vascular smooth muscle cells 65–72

J. Li, H. Lu and C. Huang: NFAT3 is required for EGF-induced COX-2 transcription, but neither iNOS transcription nor cell transformation in Cl 41 cells 73–82

P. Raina and S. Kaur: Chronic heat-shock treatment driven differentiation induces apoptosis in *Leishmania donovani* 83–90

E.C. Lascano, H.F. del Valle and J.A. Negroni: Role of the cyclooxygenase pathway in the protection against postischemic stunning in conscious sheep 91–100

H.-H. Hsu, S.-F. Cheng, L.-M. Chen, J.-Y. Liu, C.-H. Chu, Y.-J. Weng, Z.-Y. Li, C.-S. Lin, S.-D. Lee, W.-W. Kuo and C.-Y. Huang: Over-expressed estrogen receptor-α up-regulates hTNF-α gene expression and down-regulates β-catenin signaling activity to induce the apoptosis and inhibit proliferation of LoVo colon cancer cells 101–109

A.A. Bernardo, F.E. Pinto-Silva, P.M. Persechini, R. Coutinho-Silva, J.R. Meyer-Fernandes, A.L. Fonseca de Souza and V.M. Rumjanek: Effect of extracellular ATP on the human leukaemic cell line K562 and its multidrug counterpart 111–124

M. Díaz-Muñoz, M.A. Álvarez-Pérez, L. Yáñez, S. Vidrio, L. Martínez, G. Rosas, M. Yáñez, S. Ramírez and V.C. de Sánchez: Correlation between oxidative stress and alteration of intracellular calcium handling in isoproterenol-induced myocardial infarction 125–136

A. Preet, M.R. Siddiqui, A. Taha, J. Badhai, M.E. Hussain, P.K. Yadava and N.Z. Baquer: Long-term effect of *Trigonella foenum graecum* and its combination with sodium orthovanadate in preventing histopathological and biochemical abnormalities in diabetic rat ocular tissues 137–147

S. Manna, S. Banerjee, P. Saha, A. Roy, S. Das and C. Kr. Panda: Differential alterations in metabolic pattern of the spliceosomal UsnRNAs during pre-malignant lung lesions induced by benzo(a)pyrene: Modulation by tea polyphenols 149–157

Y. Su, Y. Ding, M. Jiang, W. Jiang, X. Hu and Z. Zhang: Associations of protein 4.2 with band 3 and ankyrin 159–166

M.B. Raeder, J. Fernø, A.O. Vik-Mo and V.M. Steen: SREBP activation by antipsychotic- and antidepressant-drugs in cultured human liver cells: Relevance for metabolic side-effects? 167–173

K. Husain, J. Mejia and J. Lalla: Physiological basis for effect of physical conditioning on chronic ethanol-induced hypertension in a rat model 175–183

P.Y. Chiu, H.Y. Leung, M.K.T. Poon, D.H.F. Mak and K.M. Ko: (–)Schisandrin B is more potent than its enantiomer in enhancing cellular glutathione and heat shock protein production as well as protecting against oxidant injury in H9c2 cardiomyocytes 185–191

C.S. Lee, W.J. Park, H.H. Ko and E.S. Han: Differential involvement of mitochondrial permeability transition in cytotoxicity of 1-methyl-4-phenylpyridinium and 6-hydroxydopamine 193–200

X. Dang, M. Jeyaraman and E. Kardami: Regulation of connexin-43-mediated growth inhibition by a phosphorylatable amino-acid is independent of gap junction-forming ability 201–207
